

# THERMAL SHELVES AND CARVING STATIONS

## YOUR BEST ON DISPLAY

Put the flavor up front with Alto-Shaam thermal shelves and carving stations. Thermal shelves and carving stations are the perfect addition to any banqueting and buffet system, keeping your food fresh, hot and ready to serve at just the right temperature.

Combine your own surface material with a base-heated, drop-in thermal shelf for a perfect countertop blend. Carving stations keep the product hot while maximizing visual appeal. Carving stations can be paired with a Cook & Hold oven or a heated holding cabinet to create a self-contained mobile carving system.

# MORE TASTE. LESS WASTE.

Provide the food quality your customers want when they want it. Thermal shelves and carving stations are built with our unique Halo Heat® technology. Use this gentle, radiant Halo Heat system to keep food warm at a precise temperature while reducing energy consumption, utility bills and employee safety risks.

Maximize your profit margin by giving your food a longer display life. By putting your best food forward, more is used by your customers and less is wasted.

**Ecologically Smart.  
Economically Smart.**
