

ALTO-SHAAM®

EUROPEAN EQUIPMENT CATALOG | ENGLISH

Willing to try **the untried.**

We pioneer solutions to address our customer's challenges. Equipment systems designed to give our customers the confidence they need to embrace fresh perspectives and seize new opportunities. So every day we strive to design foodservice equipment solutions that are as intuitive and efficient as they are dependable — helping our customers achieve a greater return on their investment and enabling their creativity to flourish. Because we earn our reputation helping our customers earn theirs.

With headquarters and manufacturing in Menomonee Falls, Wisconsin, Alto-Shaam proudly provides foodservice equipment solutions made in the USA to more than 90 countries globally.

OUR STORY

1960s

Jerry Maahs, founder, seeking a way to keep fried chicken hot for delivery during Wisconsin winters, uses thermal cables to create innovative holding cabinets. Halo Heat® debuts at the 1968 National Restaurant Association Show.

What began as an experiment with the overnight cooking of prime rib leads to the creation of an entirely new category of commercial kitchen equipment:

Cook & Hold with exclusive Halo Heat technology.

1970s

1980s

Seeing a growing need for modern kitchens to become ever more versatile and efficient, Alto-Shaam fills that need with the groundbreaking **Combitherm® oven**.

Evolving into a forward-thinking company that offers complete kitchen systems results in dramatic growth and expansion, performing installations everywhere, from cruise lines to Antarctica.

1990s

2010s

Recognizing the industrychanging potential of Structured Air Technology®, Alto-Shaam partners with Phil McKee, founder and CEO of Appliance Innovation, to develop the revolutionary line of **Vector® Multi-Cook Ovens**.

VECTOR® MULTI-COOK OVENS

Unmatched food volume and variety.

The secret to more food, more often with the highest quality lies in **Structured Air Technology®**. This innovation offers up to four ovens in one – each chamber with independent temperature, fan speed and cook time control. Cook up to four different food items simultaneously with no flavor transfer.

Vector Multi-Cook Ovens

Unmatched Food Volume.

Vector cooks twice as much food in the same amount of time as traditional ovens.

Unmatched Variety.

Cook up to four different food items simultaneously – with zero flavor transfer. Control temperature, fan speed and cook time in each chamber.

Reduce Skilled Labor.

Eliminate steps in food production and the need for employees to watch and rotate pans.

Superior Consistency.

Deliver the same high-quality food every time. Structured Air Technology® provides superior cooking evenness and food quality. No food degradation. No hot and cold spots.

Advanced Control.

Designed intentionally simple, an intuitive, user-friendly interface features programmable recipes to ensure consistency with each cook.

Open the Door as Needed.

Vertical curtains of air nearly eliminate heat loss. No blast of hot air. Cooler door. Quicker recovery times.

Waterless Operation.

Reduce installation and operating costs. No plumbing, drains, filtration or associated maintenance.

COMBITHERM®

COMBI STEAMER OVENS

| A new standard of cooking excellence.

Combitherm® Ovens | CT PROformance™ Models

Why CT PROformance? Explore what sets us above the rest.

Zero Clearance Design.

Saves valuable space under the exhaust hood and reduces ventilation costs.

PROpower™ Technology.

20% faster than other combi ovens and up to 80% faster than convection technology. Enhanced production. Improved temperature control. Quicker recovery times.

80% Less Water Usage.

Boilerless design provides superior performance, improved reliability, and less maintenance costs associated with boiler parts and labor.

Seamlessly-Integrated Smoker.

Use optional CombiSmoke® to hot or cold smoke with real wood chips. No odor or flavor residue. No impact on oven capacity, door seal or oven performance.

Detachable Food Probe.

Easily calibrated. Designed to break away for easy replacement, greater reliability and reduced oven downtime and repair costs. Sous vide probe optional.

LED Illuminated Door Handle.

Designed for the needs of the busy kitchen. Provides visual notification of the oven status.

Front-Accessible, Retractable Rinse Hose.

PROrinse™ high-efficiency spray head.

Keep Employees Safe.

Safevent™ venting system automatically vents heat and steam during the last 60 seconds of the cooking cycle. Open the door as soon as the cooking cycle ends without exposure to heat and steam.

Combitherm Combi-Steamer Ovens® | CT PROformance™

 † This oven has earned an ENERGY STAR® rating from the U.S. Environmental Protection Agency.

Combitherm Combi-Steamer Ovens® | CT Express™

The compact oven that makes a huge impact.

- Compact footprint maximizes kitchen space, performance & flexibility.
- Reduce Labor with CombiCleanPLUS™ automatic cleaning with four cycle options. Uses safe, convenient cleaning tablets.
- Seamlessly-integrated smoker with optional CombiSmoke®.
- Place anywhere. Optional ventless hood and catalytic converter filter oven cavity air, eliminating the need for expensive hood restrictions.
- ExpressTouch™ control allows for simple use and navigation, customizable recipe management, and intuitive one-touch-cooking.
- Two-speed reversing fan provides enhanced cooking performance while preventing excessive water and power consumption.
- Hand-held sprayer can be used in steaming, adding water to dishes or rinsing the oven cavity.
- Gold-n-Brown™ feature provides humidity control for ideal quality and food finish.
- Enhanced control with the optional broiler element for new recipe applications and finishing dishes.
- Customizable branding. Select a standard stainless steel exterior or choose from a custom color palette to match décor.

COOK & HOLD OVENS

Precise, low temperature cooking and holding.

Featuring game changing Halo Heat® technology, Alto Shaam Cook & Hold Ovens are designed to produce better food quality and higher yields. Gentle, radiant Halo Heat evenly surrounds food without the use of extremely hot elements, added humidity or fans. One of the most versatile and efficient pieces of equipment in the industry, Cook & Hold Ovens are engineered to maximize return on investment.

Cook & Hold Ovens

No Fans. No Hood. Just BIG Flavor.

Overnight Cooking.

Start cooking the night before to save on labor costs. Your food will be cooked to perfection and waiting for service the next day.

Expand Your Menu.

With a variety of sizes and options for your kitchen, even the smallest of operations can expand menus by using a Cook & Hold oven to provide consistent results with every batch. Using the programmable features on the deluxe control models, you can store your eight favorite recipes for simple one-touch menu selection.

Easy to Operate.

Set the holding temperature and the simple control to cook by time or use the probe to cook to a specified temperature with the deluxe control. The oven automatically switches into hold mode when the cook cycle is complete.

Greater Food Yields.

Serve more portions from the same cut of meat to increase your profit margin. Alto-Shaam Cook & Hold ovens have about 18% less protein shrinkage than traditional convection ovens.

ROTISSERIE OVENS

Deliciously fast and efficient.

Alto-Shaam's self-cleaning rotisserie ovens stand out in the kitchen—and the industry. They deliver quicker cooking times, lower energy consumption and more cleaning options. All of which combine to deliver a faster return on investment. Chickens are just the beginning, though. Our rotisserie ovens can be used to cook pork loin, turkey breast, meatloaf, ribs, vegetables and more. Plus, Alto-Shaam's innovative automatic holding mode allows food to rest in the oven and enhance the appearance of your display.

Rotisserie Ovens

HEATED HOLDING

Time stands still.

Keeping food that has been cooked to perfection hot until the moment it is served demands the gentle precision of Alto-Shaam's Halo Heat® technology. With controlled temperatures and a closed environment free from forced air and added humidity, food is kept warm and flavorful, just as intended. With a wide variety of sizes and styles available, any size operation can maximize quality and minimize food waste with Alto-Shaam heated holding equipment.

MERCHANDISERS & DISPLAY CASES

More taste. Less waste.

Heated merchandisers from Alto-Shaam® are designed and built with food quality in mind. When the food is good, the sales are great. All Alto-Shaam Merchandisers keep food hot, fresh, and looking and tasting great with adjustable, independent shelf controls to keep food at optimum quality regardless of packaging. And because they use radiant Halo Heat® technology, our merchandisers will keep your product moist, providing longer shelf life, less waste and higher profits.

FOOD WELLS

Better food quality without water.
Individual well control.

Inside Alto-Shaam drop-in food wells, gentle Halo Heat® technology surrounds each heated food well with precisely controlled, even heat so there are no long recovery times or extreme temperature swings. These waterless drop-in wells easily fit into any buffet service counter, prep station, or chef's table.

THERMAL SHELVES & CARVING STATIONS

Maintain food quality. Maximize appeal.

Heated Carving Stations

Portable Heated Carving Stations keep the product hot while maximizing visual appeal. Carving stations can stand alone or can be paired with the matching Cook & Hold oven or Heated Holding Cabinet as a self-contained mobile carving system.

While many carving stations rely solely on old-fashioned heat lamps, Alto-Shaam's Heated Carving Stations keep food warmed from below and above. Soft, gentle Halo Heat radiates from the carving shelf surface, while ambient surface lamps effectively maintain temperature from above, without further cooking or drying out the food. Optional decorative sneeze guards also are available.

Heated Thermal Shelves

Add an upscale look to your countertop food display with a hot food holding module that allows you to combine your own solid surface material with a Halo Heat, base-heated, drop-in thermal shelf for a perfect countertop blend. The adjustable thermostat provides optimal temperature flexibility and maintenance for serving or carving and can be built into any new or existing service line.

QUICKCHILLERS™ & MOBILE REFRIGERATED TRANSPORT CARTS

Protect and serve your food and your customers.

Imagine being able to quickly cool down food to be handled by staff. Reduce daily production times and requirements by producing food up to five days in advance and simply rethermalizing based upon demand. With a variety of models available in both self-contained and remote configurations, QuickChiller freezer/chiller refrigeration systems are designed to rapidly and uniformly decrease the temperature of hot foods to either a chilled or frozen state well within HACCP/FDA code requirements.
